

Plans for the Fall Term Announced

New Faculty Members Chosen.

The fall term of the College will open Sept. 9. From inquiries received from prospective students, it seems probable that the enrollment will be considerably increased. The administration is very busy at present planning to care for the work of next year.

Miss Mabel Arnett, who has been teaching in the College this summer, will continue in the educational department here next year. This still leaves one position in this department yet to be filled.

Miss Margaret James of New York City will have charge of the work in public school music. She has had her training under private teachers in New York and at Teachers College.

Miss Julia Isensee has been chosen as director of physical education for women. Miss Isensee is a graduate of the University of North Dakota and has had some work at the Chicago Normal School of Physical Education. For the past two years she has been an assistant in the department of physical education in the University of North Dakota.

Dr. J. F. Rogers has been secured as director of the department of physical education and public health. He is a graduate of the New Haven Normal School of Gymnastics and the Yale Medical College. He has nearly finished the requirements of the Yale School for the degree, Dr. of Public Health. Dr. Rogers has served as assistant in the Yale Medical College, teaching anatomy, physiology and physical diagnosis. He was also medical inspector of the New Haven schools. Dr. Rogers is editor of the Proceedings of the Connecticut State Medical Society.

Mr. Foster, who has been with the Y. M. C. A. abroad for the last year will resume his work in the history department.

Miss Tessie Degan has been appointed private secretary to President Richardson, Miss Ward having resigned on account of ill health.

Other appointments are not ready for announcement at this time, but all applicants under consideration have had first class training in their particular line and a complete and efficient force of instructors will be on hand Sept. 9.

Hester DeNeen will teach the Bell Grove school southwest of Maryville.

JEWELL HOUX PRESENTS MANY MAPS TO COLLEGE.

If you stop to look over the maps on display on the second floor of the building, you may read an interesting story. It is all there—the topography of the country over which the Americans fought, instructions showing how this was obtained and many other facts concerning map making which is so vital a factor in warfare. The maps are worthy of much study because they are instructive.

But a deeper and more significant thread runs thru it all. These specimens were sent by a former student who was thoughtful enough to recognize their value to our institution. We quote from his letter:

"I spent the summer of 1916 very happily and profitably at Maryville Normal. I have considered it ever since as my school. I should like very much if you will accept the enclosed maps to be used in any way you see fit. I should like for them to remain the property of the Normal to be kept as a sort of historical record of the war.

I am connected with G-2-C (Topography) which is a branch of the Second Section of the General Staff, Intelligence. In selecting the maps I have tried to get a copy each of the different maps used by our forces.

With best wishes to you, the faculty and the student body, I am

Very truly yours,
JEWELL L. HOUX."

It has been remarked in the war that loyal students have made patriotic fighters. Why can't we have more of these things from our folks who have left us, but still consider this as their school? Not necessarily war relics, but (Continued on Next Page)

The faculty entertained in honor of the students of the college and of the visitors who are taking the course in vitalized agriculture, Tuesday evening July 29.

The guests assembled in the grove west of the building just at sunset. Miss Zenor with the aid of her music classes, Mr. Airy and Mrs. Wells gave an interesting "Indian Operetta," consisting of the following numbers:

"Awakening at Dawn"
"Sunrise Call"
"Coming of Montezuma"
"Hymn to the Sun"
"Lovers Wooing"
"Fire Drill"
"Rain Song"
"Invocation"
"Incantation"
"Sunset Song"
"Ghost Dance."

All who took part were in costume, this making the operetta more real and artistic.

Following this the guests were served punch. The tables were arranged on the campus in front of the building.

The guests were all asked to enter the library which was artistically decorated with garden flowers.

Games were played and refreshments of ice cream and cake were served.

A large number of students and visitors were in attendance and enjoyed the party very much. This party took the place of the usual play day picnic.

Watch for "The Watch Dog!" Copies of the first issue will be on sale in the west gymnasium, Thursday, July 31, for the price of one pleasant smile. Don't miss it.

FOR ALUMNI ONLY

If you are a graduate of this school, we know you are a pretty good fellow. Being a good fellow, you will like to know about the doings of other good fellows next year. There is a "bargain" way of doing this. Kill two birds with one stone—give a dollar to either Mrs. Cauffield or Miss Degan and secure membership in the Alumni Association thereby receiving the Courier free.

Pay this dollar before you leave. This will insure your not forgetting it. Besides, you will then receive the very first issue this fall. Above all, keep the staff informed of your address. Second class mail is not forwarded.

Watch the fellow who has a lot of school spirit. He is apt to be fine natured, loyal and worth knowing. Success comes his way. School spirit is an asset to both the individual and the school.

Here is an opportunity to show your spirit.

Alumni, pay that dollar before you leave! Announcement will appear on the bulletin board as to where you may see either the president or treasurer of the association Thursday and Friday.

Many Come for Short Ag. Course

Only School Offering Work.

The short course in vitalized agriculture, under the direction of Mr. Holden and his assistants, which began Monday is in full swing. This is the second short course that has been held at the College, and is the only training of like nature held in the state. The basis of study this term is, "Living Things," the third year topic of the rotation plan of vitalized rural life. Maryville has the only course in the U. S. centered around the third year theme.

Mr. Holden will be here all week, directing the work. The members of the class consist of those students in the vitalized rural life class who are to teach this work next year and other delegates appointed by their county superintendents. There are about 15 county superintendents here for the course and the class registers about 125, among whom is Miss Cornelia Roselius of the Porter School, made famous by Miss Dewey.

Nodaway County and the Maryville College is reaping quite a little fame from the work done along this line. At N. E. A., meeting in Milwaukee a vitalized agricultural exhibit was held. Most of the articles shown were made in this district and the majority in this county. Also they were made in almost all cases by students working under the direction of teachers who received their training at the College. Bert Cooper was in one of the booths, explaining the system. As a result of this exhibit (which was largely attended), Oklahoma, Arizona, Kansas, Arkansas and Texas have arranged to put the course in their schools. South Dakota has already started the work.

Miss Anthony's sewing frame caused quite a little sensation. Many teachers were seen around it at various times, sketching the plan—domestic science teachers, especially.

An automatic slide showed pictures of Nodaway County students at work.

Mrs. O. M. Tobias, better known to the student body as Cleo Lesan, visited the school July 23. Lieut. Tobias, recently returned from France, is now at Camp Taylor, awaiting discharge. For the last two years, Cleo has been teaching English and history in the Holt County consolidated high school.

Jack Bland has been employed as principal of a school at Macon.

THE GREEN AND WHITE COURIER JEWELL HOUS PRESENTS MANY MAPS TO COLLEGE.

Maryville, Mo.

Edited and managed by the students and published twice each month at the State Normal School, Maryville, Mo., except the last of August and first of September.

Entered as second class matter, Nov. 9, 1914 at the Post Office at Maryville, Mo., under the act of March 3, 1879.

Subscription Rates.

One Year\$1.00
One Quarter25

WEDNESDAY, JULY 30, 1919.

WHAT TWENTY-FIVE CENTS WILL BUY.

Did you know that the far away you could continue to get the school paper for 25c a quarter? Some of the news which appears in the paper when you are in school, you know—naturally since it is about you. But have you realized that in a strange environment next year, news of the College will be welcome news—like a letter from home, because there will be many items about folks you know—items you can only get in this way.

Next year, the Green and White will be issued every week. We are not, however, raising the subscription price—one dollar a year or 25c a quarter. Decide now to subscribe while you can get it at a bargain.

See a member of the staff in the newspaper room any time Friday. Your address and a piece of money will do the work.

(Continued from Preceding Page)

interesting collections of any kind would be valuable to the school—if only for brief display. Many times in the past, the College has been indebted to students for contributions of various kinds, and they have been fully appreciated. Let the present student body send in things of interest when they meet with them.

The school is thankful to Mr. Hous for these maps which will be carefully taken care of.

TO THE DEPARTING FACULTY MEMBERS.

The College wishes God-speed to the members of the faculty who are departing on leave of absence and to those who no longer expect to be with us. We envy them and their new friends. We hope Miss Boggs will have a lovely time just a restin'. We would like to go fishing with Mr. Miller down in the Ozarks. We would certainly have a good time, seeing New York with Mr. and Mrs. Osburn. We wish Miss Zenor would take us to Texas. And very much indeed would we enjoy seeing that Montana Normal wake up when they realize for first time the extent of Dr. Davis' knowledge—and without a book.

Good luck to you. We will miss you, but that you may have success in your new fields is our wish for you.

PHASES OF MUSIC ILLUSTRATED.

Miss Zenor gave an interesting talk concerning music, in Assembly, July 15.

The students of the English and fine arts classes no doubt noted the similarity of the principles of music, English and fine arts.

Miss Zenor spoke of the fact that form is essential to all art, therefore music must have form.

Music must also have unity and variety. Unity in music is secured thru repetition. Variety in music is necessary in order to give interest.

Illustrations were given of the many ideas and feelings music may express.

Music may express nationality. To impress upon the students just what is meant by music portraying nationality, the music classes sang "The Two Grenadiers."

Music may also express poetic thought—or simply give the feeling of joy, happiness, tranquility, or any emotional state. A Victrola record of Mendelssohn's "Spring Song" was played as an illustration of poetic thought.

Music may be program music or descriptive.

The example given of program music was the Victrola record, "The Ride of the Valkyries."

S. S. K's CELEBRATE

The S. S. K's have just finished a most successful season. The first meeting was given over to initiation. For the last gathering refreshments were sent by an absent member who is some hundred miles away. The program was in form of a jubilee.

LITERARY SOCIETY NOTES.

Eurekan Notes.

The Eurekans never become so staid and dignified that they forget how to play. The society demonstrated this in a "Childhood Days" program, held in the west gymnasium, July 17.

The program began with music furnished by the society, accompanied by Lou Mutz, Esther Dietz and Fern Searlett.

Then Mr. Miller read "Little Brown Baby," "Kentucky Watermelon," and "Socin' Things at Night."

Harriet Van Buren gave a series of readings from Edgar A. Guest.

Nursery rhymes, adapted from Mother Goose were read by Dora Allen Willis.

The next number was a Dutch Clap Dance.

"Eats," which delighted the children were served. They were pink lemonade, animal cookies, and striped stick candy.

Every one present was glad they had said:

"Backward, turn backward, O time in your flight!

Make me a child again, Just for tonight."

The Eurekans enjoyed a very interesting program July 24. The meeting opened with Victrola music. A letter from Ernest White, a former member of the society, was read. This was followed by a reading by Mrs. Bird. Marjorie Ewing played a piano solo, and Essie Ward concluded the program with a number of particularly pointed jokes.

PRIMARY COUNCIL ENJOY PICNIC

The picnic given July 17, by the Primary Council was one of the most interesting meetings that the local organization has had. The daughters of Mr. and Mrs. W. E. Courtney of Kansas City, Ellen Elizabeth, seven years old and Katherine, who is four, gave a program illustrating their work in rhythm, dramatization and interpretation.

The little Courtney girls are very clever and attractive, and have appeared in many entertainments in Kansas City.

After the program a picnic supper was served on the campus. Fifty members of the Council were present. President and Mrs. Richardson and Mr. and

Mrs. Osburn, Mrs. Courtney, Mrs. Charles Smith and her two children of Kansas City, Miss Frances Smith, Ford Bradley, and the St. Joseph teachers who are in school were guests.

MARRIAGE OF MISS HUGHES.

Several of the faculty and students have received announcements of the marriage of Miss Hughes and Mr. Newton Baldwin King. The wedding took place in Gunnison, Colo., July 12. After August 1, Mr. and Mrs. King will be at home in Canon City, Colo. The bride was, until a few years ago, a teacher in the educational department of the College. She was extremely popular during her residence in Maryville, and all her friends wish her much happiness.

ALUMNI.

Janette Mutz, 1916, and Ernest Hartness, were married Sunday, July 13. They will be at home at 303 West Eleventh street.

Charlotte Wright of Union Star, has been a visitor at the College for several days.

William Utter, 1916, who is attending Missouri University this summer, has been elected principal of the Hopkins schools.

Myrle Converse, B. S. 1918, will teach mathematics in Jacksonville, Florida.

May Gowney, 1915, will teach English and Latin in Big Horn, Wyoming.

Mr. and Mrs. Ralph McClintock will make their home in Weston, Mo.

Gertrude Walker, 1918, is attending the university in Boulder, Colo.

Mary Wooldridge, 1919, is visiting at Hugo, Colo.

Ethel Warren, 1919, has accepted school work in Wyoming.

Grace DeMotte, 1914, will attend Oklahoma University next year and will receive her degree in the spring.

Elsie Houston, 1919, has a position as teacher of mathematics and science in the Elmo High School.

Crystelle Cranor, 1919, will teach the English in the Burlington Junction High School.

Vivian Seat, B. S. 1919, will teach English and mathematics in a consolidated school at New Point.

Mattie Dykes, B. S. 1919, has accepted a position in Flagler, Colo. Miss Dykes will teach English and Spanish.

DEMONSTRATION TEACHER CHOSEN.

The staff of teachers for the demonstration school has been selected. The teachers are students at the college who desire to do school work along with their teaching.

The selection of the staff is made according to the individual's ability and training. Two years of college work, with special training in grade work is the minimum requirement.

Virginia Lawson of junior rank, has been selected to teach the kindergarten. Miss Lawson, because of training in voice and piano, as well as kindergarten work, is especially fitted for the position.

Frances Holliday, senior rank, will teach the primary grades. Besides one year experience in primary work here, Miss Holliday has had two years experience in public school work.

Annette Simmons, junior rank, will teach the third and fourth grades. Miss Simmons is an honor graduate of Lindenwood College and has had one year's experience in public school work.

Minnie Turner, senior rank, will have departmental work in the intermediate grades and the junior high school. Miss Turner has taught one year in the demonstration school, and four years in the public schools.

Carrie Coler, senior rank, will aid Miss Turner in the departmental work in the junior high school and the intermediate grades. Miss Coler has had two years' experience in high school work, and will teach subjects in which she has had special training.

Laura Curfman, senior rank, under the supervision of Miss Anthony, will teach home economy.

Manual training and physical culture will be taught in the college departments.

The demonstration school will be under the efficient supervision of Miss Brunner and Miss Miller.

DEATH OF JESSIE MURPHY'S FATHER.

Word has been received of the death of Jessie Murphy's father at the family home in Polo, Mo. Miss Murphy was called home early this term by his illness, and because of business affairs connected with the settling of the estate, she will be unable to return to finish her work this summer. The staff, of which she is a member, and the student body as a whole, extend to Jessie their sincerest sympathy.

Jessie Fannon will teach the Munkers school near Ravenwood the coming year.

Philomathean Notes.

The following program was given at the Philomathean Literary Society, Thursday, July 17.

Stunt No. 1.....Myrtle McPherron
Stunt No. 2.....Carrie Coler
Reading Stunt.....Nellie Halasey
Poem Stunt.....Sylvia Ratliff

Where were you Thursday, July 24, at 3:25 P. M.? You missed an entertaining program by not being in room 319.

Read the following program which was given at the Philomathean Literary Society and judge for yourself.

Novelty Song: "Marked Down to \$1.99—Missess West, Dunham, Jeffries, and Hulet.

Prof. H. A. Miller:

"Roughing It" by Mark Twain.

"The Wake," by Doun Byrne.

Miss Hulet:

"Parody on Maud Muller."

"Courtin' the Widow."

Catherine Jeffries:

Pianologue, "In the Usual Way."

The Philomatheans have recently had a diploma made that is to be presented to the former graduates of the College and to all Philos who are now receiving, and from now on to receive the degree of the College. The diploma is to certify that the bearer has been a Philomathean.

At the regular meeting of the Society, July 31, the diploma will be presented to all those to whom it is due who are in school now.

The diplomas will be mailed to those not in school within the next two weeks.

All Philomatheans who are graduates and therefore entitled to a diploma, be at Society July 31.

Excelsior Notes.

The Excelsiors, under the direction of Virginia Lawson, studied Lohengrin, Wagner's masterpiece in Grand Opera, July 17.

After a clear presentation of the story of the opera, Virginia played these favorite and beautiful selections from Lohengrin: Descent of the Grail, Swan Song, Elsa's Dream, and the Wedding March.

The program was not only entertaining, but also intellectual.

Variety is the spice of life. Therefore, after a series of intellectual programs, the Excelsiors enjoyed a 'fako' program, July 24.

Clarissa Whaley called the honor roll of the society. Each person responded with a joke or song.

After roll call, Jessie Fannon sang a marvelous wordless selection, entitled "Sweet Bunch of Daisies."

Charles Wallace then gave his profound essay, "S, A" on Man.

To enliven the program Veturia Faubian played in a very charming manner "The Cat and the Fiddle."

Clarissa Whaley, Bernice Westfall and Iva Sparks concluded the program with an interesting selection.

The remainder of the meeting was devoted to a social hour. Music games were played, and refreshments were served.

The Excelsiors will meet each and every Thursday, until August 15.

Good programs are arranged. Come and enjoy them.

Miss DeLuce's Art classes surprised her the evening of July 23 with a movie party. After the picture show, the evening was spent in games at the home of Rev. Cox. Refreshments of ice cream and cake were served. Those present were: Jennie Getz, Ruth Poland, Mary Crowson, Ruth Foster, Marjory Wilfley, Sadie Neal, Clare Davis, Katherine Farwell, Clarissa Whaley, Edith Hartness, Alma Mack, Iva Lape, Eulah Pierce, Alma Randall and the guest of honor, Miss DeLuce.

DIETZ SISTERS GIVE ASSEMBLY PROGRAM.

The College students were entertained at Assembly July 22, with music.

The program began by the student body singing "America" led by Miss Helen Douglas.

The Dietz sisters gave a number of musical selections. Their stringed quartette played three numbers: Ultimatum; Pilgrim's Chorus; Dream Faces.

The interlude in the Dietz program consisted of two solos by Mr. Osburn accompanied by Mrs. Osborn at the piano. Mr. Osborn sang "The Turnkey's Song and Last Night."

The rest of the Dietz program consisted of the Hawaiian numbers "Mammy's Lullaby," and the "Kentucky Dream Waltz" by Miss Esther Dietz.

SED AND MADE

THE STROLLER.

The Stroller has been pretty busy, working for Mr. Holden and vitalizing rural life, so in his effort to clean up the term's work, he has been just more than occupied.

The education of two members of our faculty has been sadly neglected. Miss Winn and Miss Arnett have never been to see Charlie Chaplin! Isn't it shocking? However, both of them intend to go to see him the very next time he comes to Maryville—perhaps.

Mr. Rickenbrode (entering Dad Scarlett's classroom): Here are your keys; I've found them again.

Dad: Where did you find them?

Mr. Rickenbrode: On the bench out in the hall.

Query: Why do all the girls get their books from the librarian who is on duty from one to three in the afternoon?

If you can't answer this, go down and see. You, too, may fall.

Miss Miller dramatized the Pied Piper for her class the other day.

Scene: Mouse in paper basket. Miss Miller confidently picks up basket and marches out with it.

Outside: Ringing screams, execution of new dance steps, etc.

Inside: Students inquire cause and send messenger to investigate.

Messenger, returning: Oh, that nasty mouse started to climb Miss Miller's arm instead of jumping into the river as he should have done, according to the story.

Students: Well, what can you expect, something always goes wrong in a dramatization.

Miss Degan gave a test to Mr. Osburn's psychology class one day last week. It was a spelling test. Bravely and confidently, she began the pronunciation of the words. One student, not understanding, asked for one word to be repeated. "A-i-d," said Miss Degan sweetly and obligingly spelling it out.

The Stroller wants to know whom he will be next year. All of the seniors has been accused of being, or vice versa, will have gone. Mr. Osburn will not be here, nor Dr. Davis of the faculty. Does this mean that he will have died or merely changed his personality? Will the Stroller have to adopt the concept of transmigration and live in another body, or hunt another soul for the body he has? Will his existence have passed on to another world or hang in suspended animation over the present sphere? In other words, is he what he is or what he has been? On the other hand, could he be what he might be?

The Stroller would ask his wife these perplexing questions, but he hasn't any. Most men's wives seem to know more about their husbands than they (the husbands) know themselves. But, as explained, this way is barred.

Perhaps vacation will clear up these important problems. At any rate, the Stroller feels pretty sure that he will

be on the job next year. He is one of the number who has just taken out an insurance policy which he hopes to live to enjoy. In which case, the Stroller closes his second successful year with you.

AGRICULTURE NOTES.

The agriculture department has assisted the Commercial Club in collecting and preparing samples of farm crops for an exhibit to be kept permanently in the club rooms.

The club hopes to make it very extensive and in time to have it cover all the agriculture products of the country.

The teachers in the county should send in samples of any crop of particular interest, in sufficient quantity to make a good exhibit.

The department of agriculture has been asked to conduct demonstrations before the agriculture class at the Farmer's Chautauqua, which will be held at Harmony, October 3-4.

The class in cereal crops, accompanied by Mr. Metzler, went on a picnic July 23.

The experiment test plots of wheat and oats on the college farm have been thrashed. Prof. F. L. Duley and Prof. A. C. Helf, of the Agricultural School of Missouri University who were here July 22, said that the wheat at the test plots here looks better and will average higher than any wheat at any other experiment station in the state.

The heaviest yield of wheat was on the plot on which a legume had grown in the rotation of crops. This plot yielded 36.6 bushels to the acre. The lowest yield was on the plot that had been manured. This was 25.9 bushels to the acre. The plots fertilized with phosphorous made uniformly high yields.

On the oats plot the heaviest yield was 45.2 bushels to the acre, on the plot fertilized with phosphorous. The lowest yield was 31 bushels to the acre; this was on the plot that had received no treatment.

The early maturing varieties made heavier yields than the later varieties. Kherson made the highest yield while Texas Red was lowest. Of the latter varieties, Swedish Select was highest with Kherson a close second.

The spring wheat made a poor yield. On the barley test plots Oderbrucken and Manchuria ranked highest.

NEW MAPS USED IN GEOGRAPHY.

Mr. Cauffield is planning to introduce some very interesting map work into his geography classes. A series of sixty maps is being prepared by Dr. Bowman of Yale University, Prof. Jefferson, of Ypsilanti, Mich., Major Johnson of Columbia University and Major Martin of Wisconsin. The maps are published by the American Geographical Society of New York City.

Mr. Cauffield is endeavoring to introduce them in connection with the various phases of geographical work, in order to visualize the questions of territorial boundaries, trade routes, economies and resources. These questions are now vital ones to all students.

The results of the war will tend to demonstrate to the citizens the meagre

character of school geography. The citizen of tomorrow needs a knowledge of world geography; a concept of the great industries; the use of raw materials; and the law of trade and commerce.

Etha Henderson has accepted a position as teacher of the Intermediate Grades at Union Star.

HISTORY CLASS HAS CONTEST.

The Current History class is engaged in a word-collecting contest. The words are those used chiefly in economic, social, political and military fields, and are words which every person of intelligence should know.

The class must not only find the word, but also must know its meaning.

The device is also suggested for use in grade work next year.

The class have made a collection of cartoons, which they are mounting.

The college has scheduled three conference games in football; two with Tarkio and one with Kirksville.

PLAN TO INTEREST CHILDREN IN SERBIAN RELIEF WORK.

The college has received a supply of Serbian Program Material from the Serbian Relief Committee.

The material has been distributed among the students who are urged to give a program in their schools, before Thanksgiving of this year.

The material consists of Serbian ballads, history and interesting stories about the native dress, customs and people.

The Relief committee wishes to interest people especially in the 500,000 homeless children; \$6.00 a month will furnish food and clothing for one child.

W. K. James of Bethany, a student in the summer school, has been displaying an interesting relic from the battle fields of France. The engineers of the division in which he was stationed, unearthed an ancient Roman coin while making fortifications. The coin seems to date from the time of the Caesars.

Annette Simmons visited friends at Downing, July 4.

Velma Appleby was a guest at the Scarlett home in Fairfax, July 4.

MUSIC DEPARTMENT HAS CLASS IN APPRECIATION.

A class in the appreciation of music was organized at the College during the winter quarter with only two members.

The next quarter the appreciation class had six members.

This summer there are twenty-four students in the class.

The aim of the course is to give to the students an understanding of music—to train students to see the beauty in music.

The course presents music from the viewpoint of the listener or the audience.

The appreciation course begins with a study of folk-songs, then a study of the forms of music is taken up.

The distinction between the romantic and classical music is traced just as in literature.

The instruments of the orchestra and their uses are studied.

Incidentally, the composers and the ages in which they lived are discussed, especially the effect of the age upon the composer.

This course in appreciation is worth while and by the growth in the membership of the class, the College students no doubt recognize the opportunity that is offered to them.

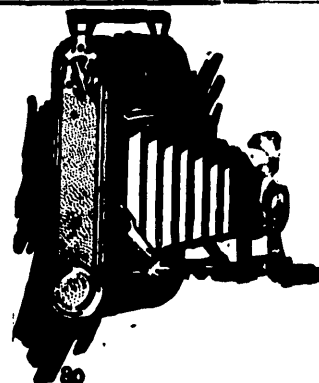

The state auditors have recently been checking up the records of the College. You may have been curious about the busy committee in the staff room. This is their annual visit.

Mr. Howard goes next year to Bryan, Texas, to become head of the history department of the military academy there.

Marie Turner will teach the Singery school near Barnard.

Mr. Eck, formerly secretary to President Richardson, who has been visiting in Maryville since his discharge from the aviation service, left recently for Chicago to assume a managerial position with Hart Schaffner and Marx. Before going into service, Mr. Eck took his degree from Northwestern.

Stella Rogers has returned to her home in Maryville from Cameron, Mo., where she has been teaching.
